S ANANYA

Data Analyst

| ananyasrinivasan134@gmail.com |

PROFILE

Data Analyst with 1 year of experience leveraging **SQL, Python, Excel** and **Power BI** to analyze user behavior, track business metrics, and support data-driven decision-making. Experienced in working with product and business metrics such as conversion, retention, and demand trends, with hands-on experience in **A/B testing** and hypothesis-driven analysis. Strong in identifying key drivers of performance and translating data into actionable insights.

SKILLS

Technical: Advanced Excel (Pivot Tables, Lookups, Automation), Power BI (DAX, Data Modelling, Dashboarding), SQL(Joins, CTEs ,Window Functions), Python (NumPy, Pandas, Matplotlib),Jupyter/Google Colab
Analytical: Exploratory Data Analysis (EDA), A/B Testing and Hypothesis Testing, KPI and Business Metric Analysis, Regression and Forecasting
Soft Skills: Strong Interpersonal and Communication skill, Analytical Thinking, Problem solving, Presentation, Stakeholder Management

EDUCATION

Bachelor of Engineering (Electrical and Electronics) | CMR Institute of Technology Aug 2018-Aug 2022
CGPA: 8.95

WORK EXPERIENCE

Graduate Engineer Trainee – Data Analytics
Altigreen Propulsion Labs| Bangalore| Jan 2023 – Jan 2024

- Analyzed large-scale **operational** and **performance data** to identify trends and improve system efficiency.
- Built interactive **Power BI dashboards** to track key performance metrics, improving stakeholder visibility and decision-making
- Automated data workflows using Excel, reducing manual fault detection time by **50%**
- Tracked and analysed **key performance** metrics to identify drivers of business outcomes
- Performed **root cause analysis** to understand changes in key metrics and recommend improvements
- Collaborated with **cross-functional teams** to integrate analytics into business workflows and drive data-backed decisions

Career Break (Competitive Exam Preparation & Skill Development)
Jan 2024 – Present

- Prepared for competitive examinations, strengthening problem-solving and analytical thinking
- **Upskilled** in **SQL, Python, Excel** and **Power BI** through hands-on projects
- Built **end-to-end analysis projects** focused on business insights and decision-making

PROJECTS

Quick Commerce Analysis
Tool Stack: SQL, Power BI
- Analyzed **200K+ users and 3M orders** to understand customer behavior and key business metrics
- Identified **85% low reorder users**, highlighting a major retention opportunity
- Broke down **input metrics (cart position, product placement)** impacting output metrics (reorders, conversion)
- Identified purchase cycles (7/30 days) to support targeted engagement strategies

- Built dashboard and recommended actions to improve **retention, conversion, and demand forecasting**

HR Attrition Analysis

Tool Stack: SQL, Power BI
- Analyzed **1,400+ employees**, identifying **2–3x higher attrition** in overtime and low-tenure groups
- Found strong correlation between **low satisfaction scores and churn**, along with higher attrition in lower salary bands
- Identified **career stagnation** as a key driver through tenure and promotion analysis
- Built an interactive dashboard and recommended actions to improve **retention and workforce stability**

Coffee Shop Sales Analysis
Tool Stack: Excel
- Analyzed **9,900+ transactions ($46K revenue, $16K profit)** to identify sales and demand patterns
- Identified **top categories and peak demand periods**, supporting inventory and staffing decisions
- Tracked **~30% YoY growth** and city-level contribution (~20–25%), highlighting expansion opportunities
- Built interactive dashboard to monitor KPIs and optimize **sales strategy**

A/B Testing Analysis for Landing Page Optimization
Tool Stack: Python (Pandas, Statsmodels, Matplotlib)
- Conducted A/B test on **290K users** to evaluate impact of product changes on conversion
- Formulated hypothesis and validated using statistical testing (Two-Proportion Z-Test)
- Found no significant improvement ($p > 0.05$), preventing ineffective rollout
- Demonstrated **hypothesis-driven decision-making and experimentation mindset**

COURSES AND CERTIFICATION

- Google Data Analytics
- Microsoft Power BI Data Analyst
- Microsoft Business Analyst
